Assistances:

All AA Members are limited to 2 fuel assistances per 12 month service subscription as part of their assistance entitlement:

Roadside assistance entitlements:

- AA Advantage Plus Members
 - unlimited* assistances per 12 month subscription
- AA Advantage Members
 - unlimited* assistances per 12 month subscription
- AA Alliance Members
 - unlimited* assistances per 12 month subscription
- AA Action Members
 - 2 assistances per 12 month subscription

*Subject to these terms and conditions – please refer in particular to our Fair Use policy on page 15.

We will charge any additional assistances at exclusive AA Member rates. Unused assistances at the end of a subscription year are forfeited.

You must provide us with the correct location and destination of your vehicle and enough information on the vehicle being towed. Incorrect or incomplete information may cause a delay in the provision of services and could result in additional costs for your account.

In the event of an assistance, you must remain with the vehicle when the service vehicle arrives and produce your AA Membership card or AA eCard and proof of identification.

Where any breakdown case needs the use of more than one of our resources, such as a road patrol, battery patrol, locksmith or tow provider, we will count these as a single assistance.

Once we have provided assistance for a breakdown, we consider any subsequent assistance for the same breakdown to be an additional assistance. This includes towing a vehicle that was towed after hours to your home, a storage area or other place of repair or safety and then needs a further tow due to the same breakdown event.

If you cancel the assistance after we have dispatched the service vehicle, this is still regarded as one assistance.

If you call on more than one occasion for the same problem, each request will count as an assistance.

Your AA Membership is personal and covers you as an individual. Therefore, you have to be present at the vehicle when the service vehicle arrives.

If you are not at the vehicle when the service vehicle arrives, and we are unable to provide service, this will count as one assistance. If the vehicle is unattended when the tow truck or patrol vehicle arrives, it may leave the scene, and we cannot be held liable for any damage to your vehicle.

Rural Areas:

In all the above instances, you may have to cover AA approved tow contractor costs and request a refund from the AA (see section on Refunds on page 14).

Should the distance be greater than your Tow distance allowance per assistance, the additional kilometres travelled will be for your account.

Should you breakdown with your pet, the AA will transport your pet in the AA tow truck cabin provided your pet can be placed into a proper transporting cage. Should this not be possible, your pet will be required to travel in your vehicle. In the event that you are incapacitated, the AA will coordinate the rescue of your pet from the breakdown scene in conjunction with the SPCA and inform you of your pet's whereabouts as soon as possible. Although every effort will be made to ensure your pet's safety, the responsibility for your pet's well-being remains with you.

AREAS WE COVER

We provide services in South Africa. Should the breakdown occur in Lesotho, Swaziland, Botswana or Namibia, we will arrange for the vehicle to be towed to the nearest place of safety or repair, subject to the availability of a suitable AA approved tow contractor.

You may need to pay the tow provider for the tow and request a refund from the AA in accordance to your Membership benefit entitlements on your return to South Africa (see section on Refunds on page 14).

Roadside security (AA Stand By You) is available to Members who specifically subscribe to the service, in conjunction with a roadside assistance, and only in certain Urban areas in South Africa, subject to the availability of our AA appointed service provider. Please refer to the AA Stand By You terms and conditions available on our website www.aa.co.za.

We also provide AA Mayday emergency medical rescue if you travel to Lesotho and Swaziland and if it is medically justifiable. Please refer to the AA Mayday terms and conditions available on our website www.aa.co.za.

RESPONSE TIMES

We provide roadside assistance as soon as possible in response to your request. We do not guarantee response times, which vary depending on location, traffic, road conditions, weather conditions and the demand for assistance at the time of your request.

In instances where an AA resource is not available one of our AA approved contractors may be used.

If assistance for your vehicle exceeds the Tow distance entitlement applicable to your Membership, the cost of the additional kilometres travelled will be for your account. If patrol assistance is required and the Vehicle is not drivable, the AA will dispatch a tow truck to the Vehicle to tow it to the nearest place of safety or repair and the cost will be for your account. Any assistance not arranged through the AA's 24-hour call centre will be for your account. The AA will not be responsible for any damage caused to the Member's Vehicle. AA road and battery patrols can assist, to an extent, with the following services:

KEYS LOCKED IN VEHICLE

This service is only provided if you indemnify the AA against any damage caused to the Vehicle as a result of the provision of this service. Multiple tyre ruptures and damage to your Vehicle as a result of pothole or other damage is classified as an Accident and accident towing services and rates will apply.

EMERGENCY FUEL

If your Vehicle runs out of fuel at a location other than a filling station, we will supply up to 10 litres of fuel to reach the nearest filling station up to a maximum of 2 times per 12 month subscription. If your vehicle requires more than 10 litres of fuel, you will be liable for the cost of the extra fuel and any additional cost towards the assistance. If necessary, we will provide a tow to the nearest filling station in accordance with your Membership benefit entitlement.

BATTERY SERVICE

If your vehicle's battery cannot be jump-started, our battery patrols can sell and fit a new battery on-the-spot. The mobile battery replacement service is subject to availability in Urban areas only, and is not available for motorbikes. All batteries come with a national 24-month battery warranty. You are liable for the cost of the new battery and may make payment with cash, major credit cards, garage cards or debit cards. Should an AA-supplied battery be replaced within the 24-month warranty period, the balance of the original warranty period will apply and this will not count as a second assistance. The price of the new battery is based on the return of the old battery to the AA for environmental and safe disposal purposes. If you wish to retain your old battery, a scrap charge will apply.

AA APPROVED TOW CONTRACTORS

When a breakdown occurs outside of the AA's road patrol service areas, the prime objective of the AA's service is to secure the AA Member and his or her passengers, and to take them to a place of safety where alternative arrangements can be made or, if possible, for repairs to be carried out.

Our AA approved tow contractors are appointed based on their fleet size and facilities e.g. 24 hour availability, overnight storage yard etc. We do not require that our approved tow contractors employ qualified mechanics. For this reason they are not permitted to attempt any but the most basic repairs e.g. changing a flat tyre.

Should you request an AA approved tow contractor to repair the Vehicle and the repairs are not successful the Vehicle could sustain additional damage resulting in escalated repair costs. The AA will not be held liable for any arrangements you may make with any AA approved tow contractor directly, (see section on Resolving Disputes on page 16).

TOWING

If your vehicle breaks down and cannot be repaired on-the-spot, we will tow your vehicle to the nearest place of safety or repair within a 50km Tow distance. Anything exceeding this will be charged at AA Member discounted rates, for your account.

If you choose not to pay the AA or the AA approved tow contractor for the cost of the additional Tow distance or any other cost related to the incident, we may refuse assistance, or tow the Vehicle to the nearest place of safety/repair/storage depot, until such time payment is received. The storage fees will be for your account.

The first night's storage is free to AA Members, and any storage requirement over and above this will be for your account.

In instances where an AA tow truck is not available one of our AA approved contractors may be used.

In exceptional circumstances, where specialised recovery or salvage equipment is needed, the cost of equipment and labour will be for your account.

We are not responsible for damages caused to the Vehicle. Any tow not arranged through the AA's 24-hour call centre will be for your account.

Additional transportation:

We can assist you in arranging additional transport for passengers who cannot be accommodated in the tow truck, for your account.

REFUND OF CHARGES

In instances where you are required to pay tow charges in full directly to our AA approved tow contractor, we will refund the tow charges in accordance with your Membership benefit entitlement, provided that your entitlements have not been exceeded. We will calculate the refund by:

- Calculating the Tow distance and
- Multiplying this distance by our preferential per kilometre towing rates plus VAT
